

# News from the gardening club

**Reported by Annabel Tarran**

**Last week all of the 11 gardening club members picked lots of apples up from underneath the apple tree and took some home. Some of us have made apple pies or crumbles with them.**

**What we exchanged with our Morrison vouchers:**

**On Thursday, this week, we counted the vouchers. In total there were 900 of them. We decided to order a wheelie watering hose because it saves us walking up and down the field all the time. We also exchanged our vouchers for a window sill propagator and some carrot and beetroot seeds. We are going to grow a few of the beetroot and carrot seeds in the propagator and then the vegetable patch.**

**Thank you to everyone who  
sent some  
Morrison vouchers in.**
